

Four colored hexagons are overlaid on a grayscale background of a laptop keyboard. The hexagons contain the words: "quick" (red), "social" (orange), "easy" (pink), and "accurate" (yellow).

2468 Atascadero Ave.
San Diego, CA

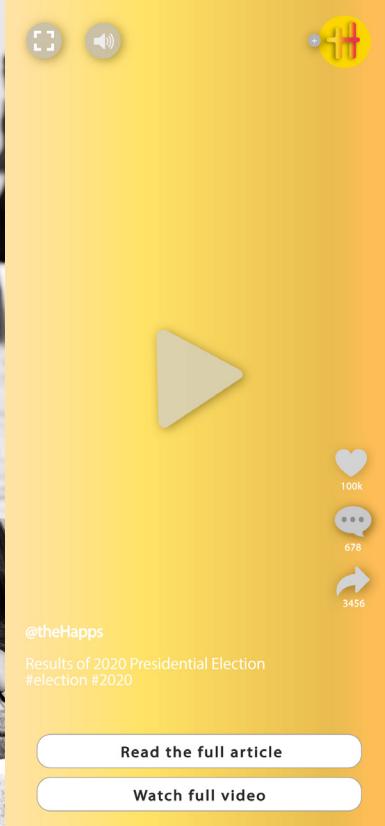

The Happs is an unbiased social media application-based news organization. It is focused on curating concise, visually-based, and easy-to-consume news content for teens and pre-teens to aid younger generations in building news reading habits.

Our Mission ➤

Anyone can create content, post it on social media and say that it is news. We recognize this accessibility to publishing platforms is a huge problem — there appears to be an overwhelming amount of “news” being produced that people feel inundated and confused. In this, though, we saw opportunity.

To be the leading news medium for middle school and high school students, while maintaining the feel of a social media platform. To give them a trustworthy, engaging news to help them navigate the world of news.
